ABOUT

Full-stack developer with 3 years of experience in Next.js, Typescript, and Ruby.

EXPERIENCE

Even - Next.js, Typescript, React Native, Rails

March 2022 – Current

Semi-senior Software Developer

Remote

- Realized authentication flow for artists on the platform.
- Implemented the new design for the current landing page.
- Spearheaded the migration to the new rails backend, testing all endpoints with a types-first approach.
- Created a build step that verifies API responses, leading to zero type mismatches on the backend with no extra client-side code.

REI/kit - Javascript, jQuery

February 2022 – March 2022

Freelancer

Remote

- Added user interactivity to the pricing page, allowing the client to view the overall price of different plans.

SKILLS

Programming

TypeScript
